

Discover a new topic in every single room...

The Mining Museum, former the mine-management in Hütten keeps ready numerous reports - step by step facts and figures out of the historical mining-activity in the area.

The „Hoyerstube“ offers to remember the chiefs of the miners, who had to leave their homeland because they have been Lutherans.

The elementary kitchen, the equipment out of the everyday life of the miners or the „Gewerkenstube“ - the residence of the mining-disposer - impart outstanding impressions.

The minerals-showroom with partial exceeding valuable pieces gives a great survey of the 2nd richest minerally find spot in Austria.

Annual alternating extra exhibitions demonstrate the history in high quality!

RELIVE 3500 YEARS OF HISTORY

Salzburgs oldest mine gives a quick review...

Ni

Cu

Silver, mercury, cobalt, copper, lead and nickel - all this has been stoped in this mining-area. While your guidance through the galleries (1 hour) you will be in the ambience, where the miners spend the main time of their life with hard work. In the most show mines you will be carried by a railroad while your tour - not here in Leogang! You walk yourself throught the narrow galleries, from time to time ducked and in single file. Because of the puristic and nearly unmodified visitor zone you will be able to imagine the work at that time.

The view down the gypsum-pit reaches 30 meters.

Ag

Hg

Pb

At the end of your walk - after 3.500 years of mining history and an altitude difference of 50 meters - finally daylight again, and the roadhouse „Unterberghaus“ offers you tasty regional food and cakes.

Co

OPENING HOURS

From May till end of October from 10am to 5pm
Closed on Monday
